EDUCATION

B.Sc. in Software Engineering
4th Year Student
2023 – Present
Student at Injibara University

TECHNICAL SKILLS

Frontend:

HTML5 | CSS3 | Tailwind CSS | Responsive Design | JavaScript | React | Next.js

Backend & DB:

Node.js | Express.js | REST API | MySQL | PHP | C++

Tools & Platforms:

Git | GitHub | VS Code | Postman

LANGUAGES

- **Amharic:** Native / Fluent
- **English:** Professional Working

TEWACHEW MELAKU

SOFTWARE ENGINEERING STUDENT (4TH YEAR)

PROFESSIONAL SUMMARY

Proactive and results-driven 4th-year Software Engineering student specializing in full-stack web development. Demonstrates strong command over frontend technologies (React, Next.js, Tailwind CSS) and backend system architecture (Node.js, Express.js, REST APIs, MySQL). Experienced in designing, developing, and deploying end-to-end management systems with responsive interfaces and secure API integration. Highly skilled in collaborative workflows using Git and Postman.

KEY SOFTWARE PROJECTS

Smart Agriculture Management System

React • Node.js • Express • MySQL • REST API

Full-stack web application engineered for intelligent monitoring and operational management of agricultural analytics.

- Architected RESTful endpoints using Express and Node.js for real-time data handling.
- Designed normalized relational database schemas in MySQL to store sensor and resource records.
- Developed reactive UI components in React for responsive metrics display.

Restaurant Management System

React • Node.js • Express • MySQL • REST API

End-to-end management system streamlining order management, floor operations, and transactional logging.

- Built CRUD API endpoints using Express to facilitate ordering and table reservation workflows.
- Integrated frontend state management with backend MySQL database queries.

Hotel Management System

React • Node.js • Express • MySQL

Comprehensive web solution for handling room bookings, guest records, and operational scheduling.

- Implemented secure guest authentication and room availability queries.
- Validated RESTful API endpoints and response payloads thoroughly using Postman.

Personal Expense Tracker

React • Tailwind CSS • JavaScript

Modern financial tracking web tool with real-time responsive UI for recording and visualizing personal budgets.

- Designed a sleek responsive mobile-first UI using Tailwind CSS utility classes.

CORE COMPETENCIES

Full-Stack Development | RESTful API Design | Relational Database Design | Responsive UI/UX | Version Control (Git) | System Debugging
